

PUBLIC INPUT SOUGHT FOR A CHANGING REGION

The Southwestern Pennsylvania Commission (SPC) is seeking public input via an online survey to better understand the changing needs of residents when it comes to transportation, the workforce and community improvements.

The SPC is asking residents to complete the survey at <https://spc-smart-moves.metroquest.com> by Feb. 1, 2019.

Survey responses will help SPC prioritize strategies as part of its Transportation and Development Plan: Smart Moves for a Changing Region. Input will help guide the way the region grows and invests both now and in the future.

For more information visit <https://spcregion.org/smartmoves.asp>.
